NEWS -- Office of Supervisor Mike Antonovich

For release May 21, subject to Board approval of Agenda Item 55

**FLOOD CONTROL IMPROVEMENTS APPROVED
FOR GLENDORA**

Los Angeles County Supervisor Mike Antonovich announced Board approval of a \$41,200 contract with Van Elk, Ltd., of Los Angeles, for the construction of flood control facilities in the City of Glendora. The facilities will include a reinforced concrete pipe storm drain, catch basins, and related structures. The Glencoe Heights Drain will reduce the potential for flooding on Glencoe Heights Drive and Palm Drive.

Work on the 24- to 48-inch-diameter storm drain will extend from the intersection of Glencoe Heights Drive and Palm Drive to approximately 150 feet north on Glencoe Heights Drive. During the work, traffic lanes on project streets may be reduced at times, with local access maintained.

The Los Angeles County Department of Public Works received sixteen bids on the project, the highest bid being \$91,008. The project is expected to take 30 working days, starting in July and ending in August.
